Hon. Dan'l M. Fox

Superintendent U.S. Mint - Philadelphia.

Dear Sir:-

In reply to your verbal request, our Mr. Remington (the writer) has obtained estimates for lowering the arches between the north wall of the new Basement Vault and the wall next to, and north of the smoke-stack, making the first story floor in the area of the Mint, on a level with the present floor of the area; and also for lowering the grade of the passage in front of Vaults A-B-C-etc. to a level with the finished floor of the new Basement Vault, including the lowering of the floor of Vault "C" to the same level (about 30") and lowering the front wall and doors of Vault "C" and altering and adding to the lining, filling up the sides and front, and replacing the floor with the same materials and construction as the present lining, all of which we will do in a workmanlike manner, for the sum of One Thousand, Four Hundred and Fifty Dollars (\$1,450). The above estimate is made with the understanding that if this work is done, it must be done immediately, as we cannot do the work for this money, unless done at the same time with the rest of our work. In case you wish to have any or all of this work done, please take immediate steps to secure the necessary

orders from the Department, as we will be ready to tear down the
arches over the rear end of the new Basement Vault within a few
days, and if the remaining arches are to be lowered at all, the
whole work should be done at the same time, in order to secure a
good job. Awaiting your reply, we remain.

Very Respectfully,

Farrel & Co
